

Power Take-Off-S

Purpose-built low-profile ePTO
for on-the-go small work trucks

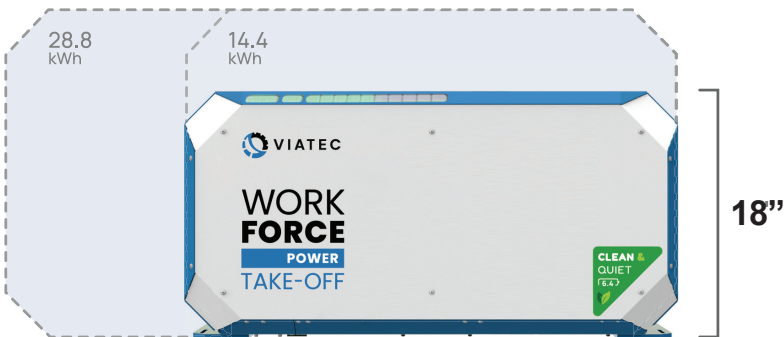

\$ 2.5 Year
Payback

Cool your cab while you fly your bucket.

 Plenty of diesel-equivalent
power for hydraulics

 Clean & quiet power for
cab comfort & accessories

 Always ready with
DriveMind™ context-aware
rolling charge

NEW

18 Inches. Buckets of Power.

- Operator-controlled quick switch to truck engine
- Clean & quiet power for clear worksite communications
- Calibrated to feel like traditional PTO
- Bulletproof, field-proven reliability

Robust Cab Comfort and Accessory Power

- 48VDC for cab comfort
- 120VAC for lights, tools, and accessories
- No need for inverters or aux batteries

DriveMind™ Smart Rolling Charge

- Context-aware on-the-go fast recharge
- Optimizes drive performance and fuel burn
- 100% safe for truck electronics
- No alternator upgrades or additional wiring needed

**One box. Any upfit.
Every chassis. Zero Integration**

1. Pick a spot. Bolt it on.
2. Connect hydraulics
3. Plug in or charge on-the-go

**Remote troubleshooting.
Less downtime.**

Features: Remote telemetry, diagnostics, repairs, & OTA software updates

Reports: Emissions, adoptions, ROI, and more.

With you at every step.

Viatic is there with expert support, training, smart tools, and more to ensure success at every stage.
